INTRODUCTION

THIS edition of the General Catalogue is the thirty-second in the series. The first, a broadside in Latin, was published in 1799, followed at intervals of three years by successive editions in Latin until 1874. The first General Catalogue in English was published in 1880, followed by issues in 1885 and 1890. A lapse of ten years intervened before the succeeding volume appeared in 1900. A complete collection of these catalogues, excepting those of 1802 and 1805, is preserved in the College Library.

The original broadside catalogue of 1799 is reproduced in facsimile facing page 32.

The general arrangement in earlier issues has been retained. Two variations have been introduced. Small capitals have been employed for the entry of Graduates, the family name being placed first. The only exception to this is that the names of clergymen, always printed in italics, are entered in the same type as in previous editions. The index of Graduates has been arranged alphabetically under each family name instead of chronologically. These variations are intended to facilitate a more ready reference to the entries.

The abbreviations have been simplified as far as possible. The Master's degree, received in course, is entered without date. When conferred under the rule requiring an examination and thesis, the

date is given. When the degree is Honorary it is so noted in parenthesis.

In the list of Graduates the degree or degrees conferred by this College is entered immediately after the name. Degrees of other Colleges follow, arranged as nearly as possible in chronological order. The academic record including graduate study and positions held in this or other Colleges, in the army, navy, civil or diplomatic service is then entered. Membership of learned societies, as far as ascertained, is given.

Honorary graduates have the degree or degrees conferred by this College placed immediately after their names. The subsequent entry is arranged as for graduates.

Owing to the absence and illness of the Editor the responsibility for this edition has devolved largely upon Mr. John Adams Lowe, Library Assistant. The members of the Library staff have given loyal and untiring service in the work of preparation.

Corrections and additions to the entries in this volume are cordially requested. These should be sent to the College Library.
